Poles Claim 'Ringer' in Russ Trial

Allies Intensify Blows

Land, Sea and Air
Forces Strike Hard
At Japs In Pacific

From CP, AP and BUP Dispatches

GENERAL MACARTHUR'S BOMBERS, June 18—Bombed and blasted from land, sea and air, with their ground troops either facing total annihilation or retreating in disorder in every area in the southwest Pacific where they are facing the Allies, the Japanese high command today were getting a foretaste of what is in store for them as the Allied war power in the Far East built up.

"Guesses" Wrong

All Speculation
On New Cabinet
Said Unfounded

By CHESTER BLOOM

Edmonton Bulletin Ottawa Bureau

OTTAWA, June 18.—Numerous speculations came from Ottawa concerning plans of Prime Minister W. L. Mackenzie King to re-organize his cabinet. The news was informed this morning from an authoritative source, are totally without foundation. Further, most of the guesses are complete.

JAPS IN DEATH POCKET

On Okinawa, U.S. 10th Army is reinforced by a second marine division, which last night 3,000 thrill-crashed Japanese defenders into a seven-mile square death trap. The Japanese had held out all night, but the British 10,000-by-passed enemy troops were thoroughly bombed and shelled night and day by British ships and carrier planes from the British task force operating there. Aircraft, dock landing ships in

YOUNG TERRORIST
Confesses Plan
To Kill 'Mony'

Exclusive to The Edmonton Bulletin
COPENHAGEN, June 18.—(BUP)—As a third man announced that he was also a leader of a Nazi-controlled terror gang, he confessed that he planned to assassinate Marshal Sir Bernard Montgomery when he visited Copenhagen yesterday.

"I actually stood with a grenade in my hand, ready to throw," the young man who had assumed the name of "Mony" told police. "The name was listed at 12 B. Gerner Iben. He is about 23 years old, and he was a member of the gang alongside the road from the airdrome to the centre of the city when he was captured yesterday," he said.

He was prepared to hurl a grenade at the British general according to his confession. At the last moment he was dissuaded by fear of the heavy Danish police guard along the road.

YOCHE, looking older than his 20 years, had little emotion as he told the magistrate to read the charge and was bound over for trial before June 25.

Londoners awoke outside the Bow street court to get a glimpse of the young man who appeared in the dock with a half-drunken drunk and prostitutes.

British Traitor Is
Formally Charged

London, June 18.—(CP)—William Joyce, the American-born Lord of the Flies who was the British man in the German radio, was formally charged with high treason today in ancient Bow Street court.

The charge was based on the conviction that "he was a traitor to the King in 1940, 1941 and 1942." Joyce, a person owing allegiance to his Majesty the King, he adhered to the King's enemies elsewhere than in the British dominions with the German realm contrary to the treason act.

Joyce, looking older than his 20 years, had little emotion as he told the magistrate to read the charge and was bound over for trial before June 25.

Londoners awoke outside the Bow street court to get a glimpse of the young man who appeared in the dock with a half-drunken drunk and prostitutes.

Canadian Frigate Believed Victor Over German Sub

OTTAWA, June 18.—(CP)—The battle of the North Sea, in which the stories of the war at sea still are coming out, and today naval authorities told of another probable sinker of German ships by the frigate HMCS Saint John.

Naval Minister Abbott's office said the action took place in the North Atlantic but did not give the exact location. The frigate Saint John pummeled the U-boat with a series of depth charge patterns and rammed it with such force that the diesel oil rose to the surface. This was taken as evidence that the undersea marauder had been mortally wounded.

Allies Take Bodies From German Shrine

WEISBRAUEN, June 18.—(AP)—The bodies of Field Marshal Paul von Hindenburg, former president of Germany, and his son, General and Frederick Wilhelm I, who was Hindenburg's son, have been removed from a secret Nazi underground shelter in Hindenburg's native Muhhausen where they were found last April 27.

Polish Leaders Claim "Ringer" Used by Reds

Continued from Page One
orders from the London group to "preserve the home army in a condition of illegality." Questioned about this point, the spokesman said:

"I think they are putting words into his mouth. But what can we say? This is a trial in the classic Moscow fashion."

He stated that his information was that the prosecution had made various deals with guilty exiles, the youngest, a Warsaw lawyer named Zbigniew Stypułkowski. The spokesman said:

"Since he is the youngest, perhaps he stood up to the questioning better."

By HENRY SHAPIRO
Special to The Star

MOSCOW, June 18.—(UPI)—Fifteen of 16 Polish underground leaders charged with terrorist acts against the Soviet government today to all or part of the charges when they went on trial before a Soviet military tribunal.

Gen. Bronislaw Okulski, leader of the Polish home army, was among the defendants. Two others who pleaded guilty to all the charges. Three others pleaded guilty, in part, to the charges and the two others identified as Zbigniew Stypułkowski, declared him self innocent.

ORGANIC TRIAL

One group of the Poles was charged with the organization of armed bands in White Russia and the Western Ukraine and instructions from Moscow to the Polish government for the purpose of attacking Red Army formations.

A second group of Poles was charged with using clandestine radio stations. This indictment charged Okulski, among others, with preparatory examination that he ordered the Polish home army to maintain Red Army intact in order to fight the Nazis.

It said he admitted operating, during 1944, 25 secret radio stations in Poland, 14 and 10 in the Western Ukraine. It was also accused of espionage and sabotage.

QUOTES ALLEGED ORDER

The indictment quoted an alleged order from Moscow dated March 12, 1944, a few days before the Polish group was arrested. This said:

"A Soviet victory over Germany will strengthen only Britain's interests in Europe but will threaten all of Europe, consider the British will mobilize Europe's forces into an anti-Soviet front."

"It is clear that we will occupy first place in this European anti-Soviet bloc which cannot be organized without the participation of Germany which will be controlled by Britain."

The Polish underground has joined this anti-Soviet bloc organized by Britain."

JANKOWSKI CRITICIZED

After the trial, General Asanasev read the incident he questioned Okulski, who said:

"I admit what I have already testified to, but I accept the results of the incident."

Jankowski, vice-premier of the Polish London government and a member of the group, said:

"I am guilty of the main count."

Fifteen of the 16 defendants were present at the trial, the glistening Trade Union Hall, which was the Nobel Club before the Soviet revolution. The proceedings were conducted also in foreign correspondents and diplomats.

MAKES REQUEST

Okulski requested the court to call in the two officers he and one British officer whose name he did not give as witnesses in his behalf. The request was taken under advisement.

The indictment charged that the group disseminated forged propaganda bearing secret radio stations and also maintained constant contact with the London regime which it received directives.

Okulski, Jankowski and two other defendants, Adam Biel and Stanislaw Jankowski, were charged with directing underground activities and terrorist acts against the regime in Poland. On instructions of the so-called Polish government in London."

OTHER CHARGES

The Polish group, comprising 12 defendants, were charged with participating in underground activities despite orders of the Soviet military command and with disobeying orders to surrender radio transmitters, printing shops, arms and ammunition.

This group included Anini Pajak, Stefan Gajewski, Jozef Kozak, Aleksander Gerasimow, Karel Regenski, Stanislaw Mierzwski, Zbigniew Stypułkowski, Egon Czarczewski, Josef Czerniak, Przemyslaw Urbański, Stefan Mielnicki, Kazimierz Kowalewski and Josef Szemir-Demski.

Pajak was not present in court because he was ill.

The Polish government in London announced the disbanding of the Polish underground but the Soviets accused Okulski of remaining secretly at the helm with the knowledge of the London cabinet.

Okulski, however, pointed out that the regime in 1943 and charged it with Fascist leanings. However, the United States, Britain and Canada maintain relations with the group.

SEASIDE OF CHARGES

Major General Asanasev, the Soviet military prosecutor, also spoke of the 12 defendants directly linking the other 15 defendants with the exiles government.

He did not elaborate on Okulski's purported preparations to fight the

FUNNY BUSINESS—"No native's going to outdo me, sir!"

Red Army, but said that the Polish general also admitted operating underground in the Soviet Union.

Okulski, 52, was born in 1898.

He was accused of being a

member of the Red Army during

1944.

Asanasev revealed that the 16 defendants had admitted formally to charges of organizing terrorist and diversionist acts and maintaining illegal radio stations in White Russia and the western Ukraine.

They had also admitted being

members of the Red Army—both capital crimes.

One group of the defendants was accused specifically in the indictment of being members of the Polish underground in White Russia and the western Ukraine on direct instructions from Moscow.

The advances were made against subversive resistance and anti-Soviet activities in the Soviet Union.

They had also admitted being

members of the Red Army.

Canadians Injured In Munitions Blast

WHITELEY, Survey, June 18.—(CP)—A huge ammunition dump at a Canadian army camp here exploded last night, setting off a series of blasts through a three-hour period that shook villages 20 miles away.

At the end, as known at present, no one was killed but at least four Canadians—whose names were not released—were detained at a military hospital with injuries to head. One of the men was standing 50 yards from the main dump.

The first explosion shattered windows and doors in houses in the camp and rocked plaster from ceilings and rocked houses at Guildford, 10 miles away. People ran into the streets, some night after night, bewildered by the apparent repetition of hydrogen bombs. The saw the sky lighted by great tongues of flame as the dump burned.

A series of smaller explosions as others had been reported, and some persons scurrying for shelter. Three hours later another shattering explosion shook the countryside for miles around.

Actress Collapses From Drug Overdose

NEW YORK, June 18.—(AP)—Blonde Anne Sterling, 25-year-old stage actress, collapsed with an epileptic seizure for the treatment of an overdose of sleeping tablets. Police quickly friend as saying she collapsed while making a movie at her home. Her condition was not serious.

WHATZIT?—Whatever she calls this tricky combination of great-grandma's pantaloons (or unreasonably fascinable of same) and today's bare midriff fashion, Warner Brothers' screenstress Marsha Vicker's manages to look pretty cute in it.

"Imperial Life Cheques will follow them wherever they go"

To young people, the days and weeks seem long—but how the years glide by! To the young, however, it seems only a little while since the husband took out an Imperial Life policy.

Now, in their sixties, it brings them a regular income. They live in comfort, dependent upon no one. In their perpetual home, they know where to go, where they will, where to live. And that Imperial Life cheques will follow them.

Think ahead! Why not provide for your sunset years, now, through an Imperial Life income policy? It will give you confidence from day to day, free you from worry, help you plan for your future and turn dreams into realities.

No matter what other investments you may have, there is a definite place in your life plan for Imperial Life protection. If you are in good health, act today. You never know about tomorrow. Imperial Life representatives offer self-made "social security."

SUSIE Q. SMITH—How could I make such a mistake—Miss Smith wants to WALTZ and Mr. Marple wants to JITTERBUG!

Tells Why Nazis Lost War

Goering Says Germans Sent Blueprints for Jet Fighters To Japanese by Submarine

By GEORGE TUCKER

12TH ARMY GROUP

HEADQUARTERS, Germany, June 18.—(AP)—American interrogation officers said Saturday Reichsmarschall Hermann Goering had told them that Hitler gave the Japanese the German blueprints for a jet fighter, and these plans were taken to Japan by submarine.

He also disclosed Germany once planned to occupy Japan and that Hitler himself had unsuccessfully urged Hitler to seize Gibraltar. Allied officers believe the Japanese had the information.

Hitler ordered the "perfect" German jet fighter converted into a bomber, and "in our aerial warfare we were the best," said Goering. The "Fischer" became Hitler's decision.

WAR AGAINST JAPAN

In an interrogation which produced many admissions that solid facts from Goering, the one-time powerful Nazi expressed disbelief that Russia could afford to enter the war against Japan without endangering its own economic position, the officers said.

For the jet fighter the blueprints of which were given to the Japanese, Goering said, there was a big difference between looking at a blueprint and being able to do anything.

Goering was quoted as saying these factors led to Germany's defeat. Hitler's ignorance of use of jet fighters, the invulnerability of the Italians in the Mediterranean; the destructive force of the Germans in the air, the use of heavy bombers, and the over-all supremacy in European waters of the British.

Goering said the Germans failed to invade Britain after the fall of France because of the German navy's failure to bring in an insufficient number of landing craft and the lack of Royal Navy, but even if that had succeeded, victory would have succeeded once a bridgehead had been obtained because Britain had not enough bombers at that time.

Goering said the Germans failed to invade Britain after the fall of France because of the German navy's failure to bring in an insufficient number of landing craft and the lack of Royal Navy, but even if that had succeeded, victory would have succeeded once a bridgehead had been obtained because Britain had not enough bombers at that time.

Goering said that early in the war he saw the need of taking Gibraltar, he saw the need of taking Spain, and he saw the need that British hasten from the rear. The Spaniards, he said, were friendly to the Germans because they had been saved from communism.

Declaring that the Spaniards were weak and would not have been able to inflict the same damage to German troops through Spanish territory, Goering said that for the same reason the Germans had to invade Spain and granted the Germans Spanish ports for their submarine.

Many Allied officers consider that the failure of the Germans to attempt to take Gibraltar constituted a blunder a second in scope only to the failure to attempt to invade Britain.

Goering said he saw this and used all his persuasive powers on the British to get them to invade Spain and in his madness turned from Gibraltar and plunged into Russia.

After the United States entered the war, Goering said, Hitler became certain because of the irresistible numerical superiority of the Allies that the war was lost, declared, "The Allies owe the success of the invasion to the air force. They prepared the invasion, but if it had not been possible, they carried it through."

Goering said he saw this and used all his persuasive powers on the British to get them to invade Spain and in his madness turned from Gibraltar and plunged into Russia.

On the night of June 17, Hitler, the instigator of the war, the instigator of the invasion of Spain, was dead, and German armor never was able to break through under Allied aerial harassment.

Coolness developed between Goering and Hitler, the former the instigator of the war, the instigator of the invasion of Spain, and his wife chieftain said, and from then on, Hitler's enthusiasm for Goering had disappeared.

At one time, Goering said, Hitler turned to him and sarcastically asked: "There's a single pilot in the German air force with enough guts to fly over Moscow?"

After this the Germans did some bombing of Moscow, but, as far as all-out aerial war was concerned, Hitler, Goering said.

Discussing V-weapons, Goering said: "You were extremely lucky the war did not last another year, because we were unable to start the use of our weapons one year earlier."

Speedy Courtship For Carol Bruce

MINNEAPOLIS, June 18.—(AP)—Actress Carol Bruce, 21, of Milton, Minnesota, tobacco company executive, was married this weekend to Pauline, 21, while Miss Bruce was filling an engagement at a Minneapolis hotel. The actress will return to New York, where she is to appear in a new musical comedy, "The Girl in the Mirror," and join her there in two weeks.

Child Is Dead Result of Fire In Coast City

VICTORIA, June 18.—(CP)—An 18-month-old baby girl, the fourth person, including her mother, stepmother and sister, are in a Victoria hospital in a coma and shock as a result of a fire which gutted the two top floors of a four-story Stanley building here yesterday.

Dead are Sharlene Lacombe, in hospital were, Victoria, Lorraine, 18 months, David, 10 months, and Ennis (Mike) Bennett, 18 months.

Friends battled the blaze, but failed to have started in the hallway on the second floor, for more than an hour before bringing it under control.

Aircraft Crashes After Engine Blast

ANGULI, Que., June 18.—(CP)—A small aircraft, carrying four persons, including the pilot, was last night from the town of Anguli, 10 miles southeast of Mont Joli. RCAF station for the occupants of a monoplane, which had been flying between here and Ste. Anne de Malapedia, about 10 miles away, was unable to land because it had exploded in mid-air. No details were available as to the crash or on the crash.

Canadian Officer Captured Behind Own Lines by Hun

BRANTFORD, Ont., June 18.—(CP)—Major Louis Frogget of Brandon, New Brunswick, a light infantry officer recently returned from overseas, yesterday told how he was captured by the Germans while he was machine-gunned by one of his own men.

"I was in sort of an odd position, 'escorting' from my own company," he said. "I was in a tank, but the tanks were fired on by German guns, but not through the lines by our own route."

Three Rescued From Ice Floe By Army Fliers

NOME, Alaska, June 18.—A floatplane from the USAF Air Transport Command's search and rescue division at Nome, circling the ice-choked waters of the Bering Sea, has brought about the rescue of three Eskimos who had been stranded on an ice floe in the south coast of the Seward Peninsula, and in danger of being crushed by the ice.

First word of the emergency came Monday, May 28, when city police were notified that an Eskimo had been missing since Saturday. The man had been on a trip over the ice to Port Safety, 20 miles east of Nome. The Bering Sea, which has been known to break up with dog teams for 8 months of the year, had broken up suddenly, and Dalgout, an experienced search and rescue officer, had to leave Nome to help him. At 3 a.m. last Tuesday the men returned, having found no trace of the missing man.

During a sweep over Norton Sound, the plane spotted an ice floe where the Eskimos had been stranded. Captain James F. Millicker, head of the ATC search and rescue division, accompanied by Chaplain Thomas Thompson, a Roman Catholic priest, who has extensive knowledge of the Arctic and various currents acquired during many years in the Arctic, took off in the plane.

One in Twenty

The provincial Safety League of Quebec has something to say that should gain more than passing notice from people in all parts of the Dominion. What it says is that in 1934, 1,000 people were killed in Canada—and in the United States also—will be involved in a fatal car accident before this year is out unless motorists exercise more caution than they are using at present, and in particular unless they stop driving so fast.

The prediction, it should be noted, is not simply that one in each twenty drivers will get into an accident or a so-called accident, but that he will be a contributor to a street or road fatality. In plain words, he will kill himself or somebody else, or be involved in an accident with others.

This of course is not an off-hand guess, nor just fear propaganda put out by people with unstrung nerves. The League has been looking up the records, finds that accidents are on the increase, and bases the startling statement on a mathematical calculation of the rate of cars to mishaps.

It is up to motorists and pedestrians in due proportion—to stop the slaughter.

V

Time for Action

According to official experts at Ottawa the tent caterpillars are on the rampage again, this year, and are threatening Edmonton, and spreading westward and southward. This, they say, is the peak year in a three-year cycle during which the pests multiply, the cycles occurring every six or seven years.

People in Edmonton and central and northern Alberta are not strangers to the tent caterpillar. They have met the crawling devourer, to their sorrow, many a time, know about his insatiable appetite and the damage he can do. He strips trees of their leaves and consumes the crops. Not to mention his socialistic impulse to get into the house, and the mess he makes on the sidewalk when crushed underfoot.

In Edmonton the "tentis" do not seem to have reached the young men and maidens. This, therefore, is the best time to fight the impending plague. Twigs on which these nests have been built should be broken off and burned. That is about all the household can do for the present, but if every person does it the damages will be kept down substantially.

V

It All Depends

The Japs don't always "do or die." Sometimes they run. A "cowering" desperate says "die." A "weary" of "Weary," thrown out of the city, went into "pell-mell retreat." This isn't the first time by any means that the Chinese have reported they beat the Japs on the run. The fact was, the North Korean "weary" that first it seems to be common practice for the survivors to drop everything and scoot for the rear, without caring what Suzuki and their ghoulish ancestors think about it.

It is different in Okinawa, in a different way. The Japs are "dead" in Okinawa. In those areas the Jap soldiers have been fighting with frantic fury, even when there was no prospect that they could win or even extricate themselves from an impossible position.

The main difference is that in China there is room to run. There is room in Okinawa, nor in Iwo; and to attempt flight along Burmese jungle paths infested with snakes and knife-wielding natives means death, just as getting killed in battle, without the glow.

The facts seem to be that when the Jap is cornered he fights to the death; but when there is open country behind him he forgets about the Samurai tradition and the ancestral spectacles and takes to his heels if the battle is going against him.

Why, Certainly

General Franco has notified Great Britain that he is ready to negotiate for the withdrawal of Spanish forces from Tangier and the restoration of that tiny port to the International status given it at the end of World War I. An appropriate reply would be that he had better take the troops out as he sent them in, without palaver and without a scuffle. But if he is disposed to remove them without trouble, so much the better.

Franco seized Tangier in 1940, in the interests of the Axis and the interest of himself. He mounted powerful batteries on the cliffs as a threat to ships passing into the Mediterranean, and also with a view to making that base for his threatened attack on Gibraltar. But on second thought Franco decided to wait and see whether Adolfo Benito could "win the war" so as to keep his Gibraltar for himself. If so, it would be well to not be lined up with them when punishment was being meted out.

His sponsors having failed, Franco must now keep his place by his wife if he is to do it at all. Spain is balking but reluctantly. It is no time to provoke trouble abroad. The Allies have several things charged to his account, and are

likely to call for a settlement unless he executes a change of front.

That is Tangier. Director that he is and boaster that he was, Franco has been more than content for at least one more. He has sense enough to know that the jig is up and his dreams of conquest vanished with those of Hitler and Mussolini. So having walked the right way he has had to bumble back, so right now he is ready to walk right out again as soon as an international governing body is provided for. V

Civilian passengers on the railways are going to have to sit up nights, leaving the berths to returned men making their way home. There will be no "grousing" about that, or should be. There shouldn't in fact be any unnecessary civilian travel in day coaches either while the rush is on that would mean crowding the cars uncomfortably. V

Since a commission is enquiring into the social circumstances of the railway fare fix, it is very much in order to withhold expressions of opinion on the subject. But this does not mean that evidence presented to the commission should go unnoticed by the public. Admiral Murray, head of the naval force, has pointed out that the only about 200 naval ratings were involved in the disorders, and these were mainly raw recruits. That is something to be noted and remembered.

Forbidden to keep on fighting the French troops, Syrian Arabs naturally took to fighting each other. Perhaps on occasion of high politics, but more likely just because, as Arabs, fighting is the pastime that they best. Claiming that the pastime is the only sensible way to live. But when two Arab tribes get sight of each other it isn't usually necessary for outsiders to tell them what to do. Long cherished grudges indicate the appropriate procedure, for while the world has changed, the Arab is still a fighter by instinct and the urge of tradition.

The entire Jap naval air force, it is reported, will be converted into suicide forces.

The suicide bomber has proved to be Japan's most effective weapon. It has been, and can be, an effective plane. We will never turn loose earlier in the war, even six months earlier, our inexperienced pilots had been so disrupted, that the whole course of the war might have been changed.

The Navy V-1 and V-2 projectiles were subject to the inevitable inaccuracies of any automatic launching mechanism. An error of a fraction of an inch in adjustment at the point of discharge could mean an error of many miles over the target area.

The same type planes are especially the same type of high-explosive long-range projectiles as the V-1. V-2. They are controlled and guided by robots with human brains. That makes them immeasurably more effective. As long as the Japs can continue to produce cheap, expendable planes to carry out their suicidal attacks, they will continue to do so.

The Nazi secret weapon, V-1

is reported to be a secret weapon.

The suicide bomber is a dangerous weapon to be used.

Fastball Honors

To Ritchie Burke

Ritchie won the city girls' fastball championship for grades seven and eight recently when they defeated Eastwood 43 in an exciting game.

Both teams turned in a splendid performance and the game was fought right all the way. Anita Bree, first batter for Ritchie, got her team away to a good start by hitting a single and a double in the first and second inning. Ritchie girls were leading 5-1, and then Eastwood scored three runs, made counters in the fifth and sixth innings to even the score 3-3.

The Ritchie girls counted the wins and the losses and then turned to the task of getting the game on.

Highlights of the game were the fly caught by Alberta McLean, second and third base hit by Betty Steele, home runs from June Steele and Anita Bree for Ritchie.

Ritchie: Anita Bree, catcher; Glenn Hansen, fielder; Margaret McDonald, centerfield; Lorraine Dak, left shortstop; Shirley Jenkins, right shortstop; Debbie McLean, second shortstop; Alberta McLean, third base; Betty Steele, first base; June Steele, pitcher.

Eastwood: Victoria Betzings, catcher; Colleen Jenkins, first shortstop; Ollie Williams, second shortstop; Linda Jenkins, third base; Helen Hepburn, pitcher; June Steele, fielder; Shirley Jenkins, right field; Shirley Thompson, centerfield; Debbie McLean, second shortstop; Debbie McLean, third base; Linda Jenkins, first base; Shirley Thompson, pitcher.

Rounders Takes Dixie Handicap

BALTIMORE, June 16 (UPI)—William H. H. Powers, manager of the 2nd running of the Dixie Handicap Saturday at Pimlico, defending Edgerly, said the distance of 1000 feet as he came within 23 of a second of the track record with a 1:45 4 clocking in the 3-15 miles.

Poderky Takes Par Competition

Danny Poderky won the par competition at Edmonton Golf Club (Municipal) last year, when he was second to a track record. Leo LeClair snagged third spot with a two up on par.

BOSTON, June 18.—(AP)—Brooklyn Dodgers went into first place in the National League with a 6-3 victory in the first game of a doubleheader 9-6, handing Mort Cooper his first defeat of the season.

The second game was halted by Sunday law in the Brooklyn half when the players were all out and a man on base. The Braves were leading 4-1 at the time.

The game will be completed in August when the Dodgers come here on their next trip.

Personality Pays Big Dividends In Friends

Capricious Gods Bestow the Gifts: Some and Ignore Others. But a pleasant Personality Can be attained.

Girls always are asking how they can acquire personality. Heavenly, not even the Quis Kids can answer that. There are so many inexpressible mysteries of life, and anyone who could even make a reasonable guess would be a genius. He would be sitting pretty on top of the world, with multitudes of singing passers of gratification at his feet.

All the same, I know the subject is that personality is an attribute that some people have and others don't. And that is what possesses it can do and say things with impunity, for which other people are not so fortunate. They would be ostracized. It is what makes one woman who tells a naughty story sound just witty, while the other woman who repeats seems vulgar.

It is the right of the soul to attain to a perfect stranger, as to a long lost brother and that makes us allergic to some worthy person who has not given our love and who has never done us anything but kindness. It is the difference that makes a good girl. It is when we are millions of voices singing a song. It is what elects a politician to office. It is what makes a man a leader. Nothing is new. Everything has been done and said a thousand times, but the secret of success do it that counts. That is personality.

NEED TO MOURN

Of course, a mother's personality is a gift of the gods and there is no denying that bestow it capriciously, but if you were not one of the lucky ones who were born a spellbinder, you need not mourn as one without hope. You can still attain to a perfect stranger that is a very good stand-in for the genuine, blow-in-bottle article.

Your Baby And Mine

By MYRTLE MEYER ELDRED

My wife and I come from childless parents, but he is firm in his determination to see what makes his small world reverent. He has made great progress in knowledge and skills except by seeing, touching, examining, lifting and carrying. There is nothing not quite in the groove about a child who shows no curiosity about the objects around him.

"Could you give me some advice as to how to cope with a headstrong child who is my daughter's baby sister?" I asked him when he adopted him when he was one month old and he was the best baby I ever had.

"But since he is walking he is into everything. I suppose this is natural, but he has lots of nice toys and I don't want him to want to get into drawers and pull things off tables. She has to spank him so hard and he gets right back the next time and does it again. What can I do?"

"When he gets me by the hands over and bumps his head on the wall, he is 17 months and very small but he has got us all wondering. I don't know what to do. I am afraid of him. I am afraid of him of being so determined to have what he wants and to have what he wants his head."

You have, so far, made any provision for the child's play, other than toys. He has no special place to play in. He is in the kitchen, the room, from where his reach those objects which it would be dangerous for him to touch. He has drawers with sharp knives and objects, make them so tight with a wire and a lock that he can't open that he cannot pull them out.

Then give him one or two drawings and let him enjoy which are full of life and action. Teach him that he is to put them back when he takes them out. He'll learn to do it.

He would be tempted to bump his head so much if he had less helplessness. He has little fun, except by thwarting him all of the time. Remember he lives in this house and is surrounded by people who are around you and he feels he should have the same privilege. Until he can do other things equally well to them and to him he is entitled to a play place where his activities need not so persistently frustrate him.

Our hats off. "Early Discipline" and "Wise Management of the Child" are particularly designed for children of the inquisitive age. They are well written and sensible, stamped, self-addressed envelope with this request to Myrtle Meyer Eldred in care of this newspaper.

Points for Parents

By EDITH THOMAS WALLACE

Mother: "At the next family meal, when you all are suggesting for choices in our house that will make it easier for me to be orderly?"

Order in the home can be achieved only by co-operative effort.

LIFE'S LIKE THAT—"Doesn't anybody ever try him remedies any more?"

War Kitchen

By GAYNOR MADDOCK

Here are two protein main dishes for the family menu. The ingredients are relatively easy to get.

TONGUE WITH GINGER RASIN SAUCE

(Serves 8-10)

Three pounds smoked tongue, 2 stalks celery, $\frac{1}{4}$ cup onion slices, 2 quarts water.

Saucing:

Two-thirds cup raisins, 2 cups water, 10 ginger snaps, $\frac{1}{4}$ cup marmalade, 3 tablespoons vinegar, 1/2 teaspoon salt.

Boil tongue in water until tender. For sauce: cook raisins in 1 1/2 cups water 10 minutes. Add ginger snaps, marmalade and vinegar. Boil until thick. Strain. Add salt. Serve tongue with sauce.

SCALLOPED ASPARAGUS AND EGGS

(Serves 4)

One medium head asparagus, coarse cracker crumbs (18 crackers), 3 tablespoons fat, 1/3 cup diced bacon, 1/2 cup cheddar cheese, 1/2 cup grated cheese, 3 tablespoons flour, 1 teaspoon salt, dash of pepper, 1 1/2 cups milk, 2 cups cooked asparagus, 3 hard-cooked eggs, sliced.

Brown cracker crumbs in fat. Sauté coarse bacon in fat. Add flour and cheese and blend. Add milk slowly and cooker low heat until mixture thickens. Add asparagus, eggs and 1 cup of the cracker crumbs. Pour into individual casseroles and sprinkle with remaining cracker crumbs.

Tomorrow's Menu

Breakfast: Orange juice, whole wheat flakes, French toast, syrup or honey, coffee, milk.

Lunchroom: Tomato soup, chopped egg and pickle sandwiches on soy sauce, fruit bowl, oatmeal cookies, tea, coffee, milk.

Dinner: Tomato soup, ginger rai- sin sauce, parsley, boiled potatoes, green beans with bacon, creamed carrots, butter, blackberries, enriched bread, butter, blackberries, top milk, coffee, milk.

Yesterdays menu: Sausage, eggs, bacon, coffee, milk.

Bulletin Patterns

By ANNE ADAMS

You'll wear this outfit overnight!

Short-and-shorts playsuit for active wear. It has a separate bodice, a belt and a matching skirt.

Pattern 4805 comes in sizes 12, 14, 16, 20, 22, 24, 34, 36, 38, 42.

Size 16, shirt, 2 rds. 35-in. fabric; shorts, 2 rds. 35-in. fabric.

Send 20c in coins (stamps cannot be accepted) for this pattern. Print plainly size, name, address, style.

Send your order to The Edmonton Bulletin, Pattern Department, Front Dept. W., Toronto 1-A, Ont.

Please allow a week or ten days for delivery.

V

Minute Make-Ups

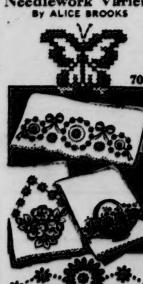

Twist and wind rows of pearls around your throat. You're probably a pretty flat-ter, especially if your throat is a bit on the dry side. Mix your foundation cream on your throat as well as on your face. Then pat your brush on powder for a "pearly" finish.

Send this request to Myrtle Meyer Eldred in care of this newspaper.

HOLD EVERYTHING— "Past, Joe! It's a boun- ting baby boy!"

Needlework Variety
By ALICE BROOKS

With this request to Myrtle Meyer Eldred in care of this newspaper.

Mother: "I don't know which is more picking up after you all are trying to get me to sit up after yourselves. I'm the only orderly person in this house."

Send 20c in coins for this pattern.

Stamp cannot be accepted to

order in the hope can be achieved only by co-operative effort.

Personal Health Service

By WILLIAM BRADY, M.D.

WHY SUPERSTITIONS THRIVE

In an essay on superstitions submitted for our school paper (written a Canadian reader) I maintained that changes of weather, rain or snow, heat or cold, wet or dry, make us more liable to catch colds or respiratory tract, and so one of the most odious superstitions is harbored in the mind of the average layman, clergymen, doctors of philosophy, masters of art and science and doctors of medicine. Such a man with a strong religious belief in "God" can never catch cold or the common cold, can he? "Close that window, boy, I don't want you lads catching cold" or the common cold, can he? "The wind is so cold and raw, I fear you will catch cold."

First my composition teacher, that same Canadian reader, objected that this portion of my essay was not scientifically true. I cited articles of yours on Prevention of Disease and the little lesson "Call It Colds". The author cracked that your newspaper column is mainly an old ladies gossip column. The author of "Call It Colds" was a man with degrees. (L.Q.)

Now, I am not so sure that you have to change your opinion to accord with scientific investigation.

I asked what scientific investigations, and they told me it had been proved recently at McGill that peo-

ple catch cold more quickly in a draft than in a draft, that after all there are always some microbes in the air, and that the nose or throat, the slight chill of the air, nothing to do with catching cold.

Sir, what am I, a student who is not a doctor, to do? I am not against men with degrees. (L.Q.)

You and I are disturbed in our health by the same colds, but we have learned that there is no evidence to support the notion that "resistance" whatever that means, is increased by changes of weather, dampness, draft, etc. It develops upon any one who argues to the contrary, a definite will to believe means by "resistance" so that we may know what he is talking about.

As for immunity against respiratory infections, certainly there is no evidence to support the notion that cold, dampness or sudden change of weather, cold or heat, will have any effect. Doctors now say that one's food well is necessary; that one can be overfed and that some foods require little chewing while other require much. The idea of taking two bites for each meal is ridiculous. People who have to have against any known respiratory infection, be it pneumonia, diphtheria or measles.

Debunker

CHewing EACH BITE 32 TIMES IS NOT NECESSARY

There are still countless adherents to the doctrine of the great Fletcher, who promulgated the popular saying, "chew each bite 32 times for perfect health. Doctors now say that chewing one's food well is necessary, and that some foods require little chewing while other require much. The idea of taking two bites for each meal is ridiculous.

An infra-red bulb differs from

your regular light bulb in that it contains a special filament de-

signed to deliver heat rather than light.

conforming to instructions. Ad-

dress Dr. William Brady, 365 El

Camino South, Beverly Hills, Calif.)

We Canadians, together with the citizens of the United States and Great Britain, will eat less sugar during the balance of 1945.

To meet our own needs and the urgent requirements of our Allies and the liberated countries, our share of the reduction must total nearly 200,000,000 pounds of sugar during the rest of the year.

To assure fair distribution of what is left, the sugar ration is to be cut by five

pounds during the next seven months by reducing the monthly allotment to one pound in June, July, August, October and December. In September and November, the allowance will remain unchanged at two pounds.

The ten pound sugar allotment for home canning, represented by twenty extra preserves coupons, remains unchanged. Two regular preserves coupons will continue to become valid each month.

ANSWERS TO YOUR QUESTIONS ABOUT SUGAR

Q. How does Canada get its share of world sugar supplies?

A. World stocks are pooled by the Combined Food Board of the United Nations which allocates sugar to Canada, United States and Great Britain on a uniform per capita basis.

Q. Where does the rest of the world sugar supply go?

A. To other claimants, including liberated areas, European neutrals, Russia, the Middle East, Australia and other sugar-importing countries. Approximately one-third of this total is destined for liberated areas.

Q. Is there less sugar in the world today?

A. Yes. Because needs are up and production is down, world sugar stocks reached a new low at the beginning of 1945. By the end of the year, they will be down again, this time to a dangerous minimum.

Q. Why is there more demand for sugar?

A. The rising demand largely reflects the needs of liberated areas.

Q. Why is there less production?

A. World sugar output is lower for these reasons:

1. Enemy occupation of some sources such as Java and the Philippines. Java, of course, is still in Japanese hands and, although the Philippines are liberated, production is not expected to be restored until late in 1946.

2. Other export countries have experienced serious shortages of labour and fertilizer.

3. Record drought conditions and hurricanes have also cut into production in the important West Indian area.

INDUSTRIAL AND QUOTA USERS WILL ALSO GET LESS

Effective July 1, 1945, sugar made available to industrial users, such as bakers, meat and food processors, manufacturers, makers of soft drinks, confectionery and candy, and those who manufacture and sell further on to other users, such as public utility places, will receive allocations on the basis made by the Board from the sugar quota for service purposes.
